The internationally popular game is now a fun-filled musical that brings the world's best-known suspects to life and invites the audience to help solve the mystery: who killed the victim, in what room, and with what weapon? The audience receives forms to help them deduce the solution from clues given throughout the fun-filled evening.

Three audience members choose from cards representing the potential murderers, weapons, and rooms; there are 216 possible solutions!

Comic antics, witty lyrics, and a beguiling score carry the investigation from room to room. Even after the culprit confesses, a surprise twist delights the audience.
